PRODUCT OVERVIEW

The ProKitchen Series Vertical Air Curtain Merchandiser is designed for commercial kitchen and food retail environments such as supermarkets, bakeries, and food service outlets requiring high-capacity chilled display storage. It features a 21 cb3 capacity with a vertical freestanding installation style and casters for positioning in service areas.

Constructed with painted steel exterior and painted steel interior, the unit measures 59.7" (W) x 31.5" (D) x 78.8" (H), supporting structured vertical merchandising across 4 steel shelves. Each shelf is adjustable and includes shelf tag holders to support organized product presentation in commercial kitchen and retail display setups.

The system operates on 115 V, 60 Hz, single phase power with 26.87 A current draw and (2) 7/8 HP compressors. It uses R-290 refrigerant with an air-cooled condenser and finned evaporator. Digital thermostat and digital temperature control maintain a temperature range of 30.2°F to 44.6°F, supporting chilled display conditions in food service environments.

Foamed-in-place polyurethane insulation supports internal thermal stability. Additional functions include automatic defrost, LED per shelf lighting, night curtain, and built-in condensation evaporating system. The unit operates within a maximum ambient temperature of 75°F and includes cETLus, ETL Sanitation, and NSF certifications. It includes a 1-year warranty by the manufacturer and a 5-year compressor warranty.
