SPECIAL FEATURES

- High Output Capacity**
Processes up to 1,296 bun halves per hour based on 4" buns at 35-second gear for commercial kitchen operations.
- Wide Temperature Range**
Thermostatic control manages temperatures from 200°F to 500°F for controlled toasting.
- Adjustable Legs**
4 in adjustable legs support stable placement on commercial kitchen work surfaces.
- 3-Speed Gear Drive**
Selectable speeds of 35, 45, or 55 RPM support different toasting requirements in restaurant workflows.
- Removable Components**
Includes removable conveyor paddle system and side panel for cleaning and maintenance tasks.
- Certified & Warranty**
CE, cULus, and NSF certifications meet commercial standards, and it includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Bun Grill Toaster is designed for high-volume toasting in commercial kitchen environments. The unit features stainless steel construction with a silver finish, supporting durability for daily food handling. It operates with a loading capacity of 1,296 bun halves per hour based on 4" buns at a 35-second gear setting.

This vertical-style toaster includes a 3-speed gear drive with selectable speeds of 35, 45, or 55 RPM. The thermostatic temperature control manages a range from 200°F to 500°F, supporting different toasting requirements. It includes a removable conveyor paddle system and removable side panel for access during cleaning and maintenance.

The unit operates on 120 V with 15 A and 1800 W, supporting standard commercial kitchen electrical setups. It is equipped with adjustable legs measuring 4 in for stable placement on work surfaces.

The toaster measures 24.9" (W) x 18.1" (D) x 30.4" (H), supporting countertop installation. It includes certifications such as CE, cULus, and NSF. It includes a 1-year warranty by the manufacturer.
