1 Year Warranty

SPECIAL FEATURES

- ✔ **Dual Solid Doors**
Two solid doors with self-closing hinges and a 90-degree stay-open feature support smooth, hands-free operation during active food handling in a commercial kitchen.

✔ **Electronic Temperature Control**
An electronic controller holds the freezer within a 0°F to -8°F range, providing reliable frozen storage for restaurant and food service operations.

✔ **Heavy-Duty Mobility**
Heavy-duty casters with brakes allow repositioning across the kitchen floor and secure locking during service, adding flexibility to undercounter installation setups.
- ✔ **EC Fan Motor**
The evaporator fan stops automatically when a door is opened, and the EC fan motor design supports consistent temperature maintenance throughout service.

✔ **ETL Certified Unit**
ETL Listed and ETL Sanitation Listed certifications confirm this undercounter freezer meets established safety and sanitation requirements for commercial kitchen use.

✔ **1-Year Warranty**
This Frigomax Series undercounter freezer is backed by a 1-year warranty, providing defined coverage for commercial kitchen operators from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 48" Undercounter Freezer is a two-door solid-door freezer designed for commercial kitchen environments including restaurants, bars, and food service operations where under-counter frozen storage is a priority.

Measuring 30" (L) x 48 1/4" (W) x 35 9/16" (H), this undercounter freezer fits neatly beneath standard counters while offering 13.1 cubic feet of internal storage capacity across two shelves. The stainless steel exterior and interior construction supports the hygienic demands of daily food handling in busy kitchens. Epoxy-coated shelves provide a durable, cleanable surface for organizing frozen goods.

This unit operates at 115V/60Hz single-phase, drawing 2.9A via a 1/3 HP motor, and connects through a standard NEMA 5-15P plug. Electronic temperature control maintains 0°F to -8°F, keeping frozen items safely stored. Self-closing doors with a 90° stay-open feature support efficient workflow, while the evaporator fan auto-stops when a door opens — an EC fan motor design for consistent thermal management.

Heavy-duty casters with brakes allow the unit to be repositioned across the kitchen floor with ease and locked securely in place during service. Door hinges are available on both left and right sides, accommodating different installation layouts. ETL Listed and ETL Sanitation Listed certifications confirm the unit meets recognized safety and sanitation standards for commercial food service use. This freezer ships and is sold as one unit. A 1-year warranty is included.
