WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **White Finish**
  White color supports clear identification within refrigeration assemblies.
- **Extended Length**
  4.5 m probe length allows routing inside coolers, chillers, and cold rooms.
- **Probe Type**
  Listed as a probe for sensing functions in commercial refrigeration equipment.
- **JST Connector**
  JST connector type defines the electrical interface for compatible wiring connections.
- **Refrigeration Usage**
  Specified for coolers, chillers, display cabinets, and cold rooms in foodservice areas.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer as stated.

PRODUCT OVERVIEW

The Medal Equipment probe is designed for commercial refrigeration equipment and suits coolers, chillers, display cabinets, and cold rooms used in restaurants and foodservice environments. Classified as a probe, it functions as a sensing component within temperature control systems. The part supports routine servicing and replacement in commercial kitchen refrigeration setups.

This unit is finished in white, providing a neutral appearance that aligns with internal wiring and refrigeration components. The specified color assists with identification during installation and maintenance. It is intended for use across multiple commercial refrigeration applications as listed in the usage details.

The probe features a JST connector type, defining the electrical connection for compatibility with matching control boards and wiring harnesses. It includes a probe length of 4.5 m, providing extended reach for routing inside cabinets or cold rooms. These specifications support proper placement within refrigeration equipment.

Manufactured by Medal Equipment, this probe is supplied as a single unit for direct installation or replacement. It is intended for commercial refrigeration systems in food handling and storage areas. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the defined period.
