SPECIAL FEATURES

- ✔ **Vertical Display Structure**
Vertical design with 3 adjustable coated wire shelves supports organized chilled merchandising in commercial kitchen and retail settings.

✔ **Digital Temperature Control**
Digital thermostat maintains a temperature range of 30.2°F to 44.6°F for chilled storage conditions.

✔ **Certified Food Standards**
cETLus, ETL Sanitation, and NSF certifications align with commercial kitchen safety and sanitation requirements.
- ✔ **Glass Display Panels**
Glass and stainless steel construction with double tempered glass supports product visibility in food display applications.

✔ **Ventilated Cooling System**
Ventilated cooling with filter mesh supports airflow-based refrigeration for commercial kitchen environments.

✔ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer and a 5-year compressor warranty for refrigeration components.

PRODUCT OVERVIEW

The ProKitchen Series Vertical Air Curtain Merchandiser is designed for commercial kitchen and food retail environments such as supermarkets, cafés, and convenience stores requiring vertical chilled open display storage. It features a 9 cb3 capacity with a freestanding installation type supported by 4 casters for placement flexibility in commercial kitchen layouts.

Constructed with glass and stainless steel, the unit measures 24" (W) x 29.6" (D) x 67" (H), supporting vertical merchandising across 3 adjustable coated wire shelves. The shelf configuration supports organized chilled food display in commercial kitchen and retail environments with structured product placement.

The system operates on 120 V, 60 Hz, single phase power with 11.8 A current draw and 1220 W wattage. It uses R-290 refrigerant with a self-contained refrigeration system, supported by digital thermostat and digital temperature control. The temperature range is maintained between 30.2°F and 44.6°F for chilled display applications in food retail environments.

The unit includes ventilated cooling with filter mesh and condensation auto-evaporation system, supported by automatic defrost. LED illumination and night curtain support visibility and off-hour operation. Double tempered glass construction supports product visibility. It operates within a maximum ambient temperature of 75°F and includes cETLus, ETL Sanitation, and NSF certifications. It includes a 1-year warranty by the manufacturer and a 5-year compressor warranty.
