SPECIAL FEATURES

- ✓ Robust Build

24-gauge white galvanized steel panels provide long-lasting durability for commercial use.
- ✓ Stable Power Supply

Hardwired 208/230 V, 60 Hz, single-phase connection delivers reliable operation for both sections.
- ✓ Frost Management

Freezer section includes a heating wire and pressure relief vent to reduce ice buildup and regulate pressure.
- ✓ Durable Flooring

Floor supports heavy loads and provides hygienic, easy-to-clean storage.
- ✓ Certified Quality

UL Listed US, NSF Listed, and DOE certified for commercial safety and sanitation compliance.
- ✓ Advanced Insulation

4-inch polyurethane panels offer R-28 thermal resistance for the cooler and R-33 for the freezer, maintaining precise temperatures.
- ✓ Secure Access

Solid swing doors with keyed locks, self-closing mechanisms, and flush-mounted design protect contents.
- ✓ Easy Installation

Modular cam-lock panels with tongue-and-groove design and CFC/HFC-free materials allow fast assembly with precise alignment.
- ✓ Consistent Cooling & Freezing

Separate cooler and freezer sections maintain even, reliable temperatures.
- ✓ Comprehensive Coverage

10-year panel warranty and 1-year door parts warranty provide long-term support.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer & Cooler Combo Box is designed for commercial kitchens requiring organized cold storage with both freezer and cooler sections. Made in America, the freezer section is 79 inches long for low-temperature storage, while the cooler section is 98 inches long for standard refrigeration. Overall, the unit measures 15 ft (L) × 8 ft (W) × 7 ft (H), providing ample storage space for busy commercial setups.

The unit is constructed from 24-gauge white galvanized steel with 4-inch-thick polyurethane insulation, offering durability and thermal efficiency. The floor supports heavy loads and ensures hygienic, easy-to-clean storage. The freezer and cooler sections operate with a self-contained system and are secured with solid swing doors featuring keyed locks, self-closing mechanisms, and flush-mounted design.

This commercial walk-in freezer & cooler combo box doors include a heating wire and pressure relief vent to manage frost buildup and maintain proper internal pressure. Thermal resistance is R-28 for the cooler and R-33 for the freezer. The unit operates on a hardwired 208/230 V, 60 Hz, single-phase power supply, providing stable performance.

Certifications include UL Listed US, NSF Listed, and DOE, ensuring compliance with strict commercial safety and sanitation standards. Warranty coverage includes 10 years for panels and 1 year for door parts.
