1 Year Warranty

SPECIAL FEATURES

- Visible Cold Storage**
 The two swing glass doors let customers and staff view contents at a glance without opening the unit, reducing temperature fluctuations on a busy service floor.
- Consistent Temperature Control**
 Electronic temperature control maintains the interior between 33°F and 41°F, keeping refrigerated items within the standard safe holding range throughout service.
- Certified for Commercial Use**
 ETL Listed and ETL Sanitation Listed certifications confirm the unit meets recognized safety and sanitation standards required in commercial kitchen and food retail environments.
- Flexible Shelf Layout**
 Eight adjustable heavy-duty epoxy-coated shelves across 2 sections accommodate varying product heights, from tall bottles to stacked deli containers, without wasted vertical space.
- Low-Effort Maintenance**
 Auto defrost handles ice buildup automatically, so kitchen and front-of-house staff spend less time on manual upkeep during operational hours.
- Covered by Warranty**
 This merchandiser refrigerator is backed by a 1-year warranty, giving buyers a defined period of manufacturer support after purchase.

PRODUCT OVERVIEW

The Frigomax Series 2-door glass swing merchandiser refrigerator is designed for restaurants, cafes, convenience stores, and other commercial kitchen or retail food service environments that require visible, accessible cold storage for beverages and prepared foods.

With a 26.5 cubic foot interior split across 2 sections, this freestanding unit holds a substantial volume of product between restocks. Eight adjustable heavy-duty epoxy-coated shelves allow operators to configure storage height to suit bottles, cans, deli items, or packaged foods. The coated steel exterior offers a clean, durable finish on the service floor or in a back-of-house area.

Temperature is maintained electronically within a range of 33°F to 41°F, suitable for storing perishables in compliance with standard food safety temperatures. Auto defrost eliminates manual intervention, and LED lighting inside the cabinet keeps displayed contents visible to customers and staff. The unit draws 6 amperes at 115V/60Hz on a single-phase circuit and ships with a NEMA 5-15P plug for straightforward connection to a standard commercial outlet.

At 29 3/8" (D) x 39 3/8" (W) x 78 1/2" (H), the unit fits into most floor plans without requiring a large footprint. Both doors are hinged — left and right — and include locks and keys for access control. The unit carries ETL Listed and ETL Sanitation Listed certifications and is backed by a 1-year warranty.
