SPECIAL FEATURES

- ✓ **Consistent Ice Output**
The machine supports up to 700 lb of ice production in 24 hours, with a maximum output of 29.2 lb per hour for beverage-focused commercial kitchens.

✓ **Air-Cooled Operation**
The air-cooled condenser with ventilated cooling supports operation at an ambient temperature of 70°F in indoor foodservice environments.

✓ **Certified Commercial Use**
ETL sanitation, cETLus, NSF, and Energy Star certifications align with sanitation and energy requirements in commercial kitchens.
- ✓ **Integrated Bin Storage**
The built-in bin holds up to 440 lb of ice, supporting continuous service in bars, cafés, and cold drink counters.

✓ **Adjustable Ice Thickness**
Full cube ice thickness adjusts from 19 to 25 mm using the digital control panel to suit different drink presentations.

✓ **Extended Warranty Support**
It includes a 2-year warranty on parts and labor and a 6-year warranty on the compressor by the manufacturer.

PRODUCT OVERVIEW

The Platinum Frost Series commercial air cooled ice machine with bin is designed for cafés, hotels, bars, milk-tea outlets, and cold drink stations requiring steady full cube ice production in a commercial kitchen setting. It supports beverage service where integrated ice storage is required.

The unit is constructed using stainless steel, ABS, and PE materials, featuring a silver and black finish. The exterior uses Type 304 stainless steel, while key internal components use Type 316 stainless steel, supporting durability in daily foodservice environments.

It produces up to 700 lb of ice in 24 hours with a maximum rate of 29.2 lb per hour and includes a 440 lb bin storage capacity. The machine measures 29.9" (L) x 33.9" (W) x 68.7" (H) and produces full cube ice with adjustable thickness from 19 to 25 mm.

Operating on 220 V, 60 Hz power with a 1500 W load, the unit uses R290 refrigerant with an air-cooled condenser and ventilated cooling. Features include a digital control panel, one-button operation, automatic cleaning, dual side air filters, adjustable stable struts, required certifications, and a 2-year parts and labor warranty with 6 years on the compressor.

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
24 Hour Ice Production	700 pound	Color	Silver & Black
Features	Intelligent Voiced Failure Function System, Air Filter, Crystal Clear & Adjustable Height Ice (19 to 25 mm)	Material	Stainless Steel
Refrigerant Type	R-290	Type	Ice Machine With Bin
Voltage	220 volt	Hertz	60 hertz
Ice Type	Full Size Cubes	Ambient Temperature Range	70°F
Condenser Type	Air-Cooled	Selling Unit	1/Each
Series	Platinum Frost Series	Product Width	33.9 inch
Product Height	68.7 inch	Product length	29.9 inch
Country of Origin	China	Legs	Adjustable Stable Struts
Control Type	Digital Control Panel	Wattage	1500 watt

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
Included	Water Filter, Ice Scoop, Inlet Hose With Filter, Adjustable Feet, Water Dividing Pipe	Cleaning Type	Automatic Cleaning
Bin Storage Capacity	440 pound	Production Time	Ice Making Time: 15 - 17 Minutes
Stainless Steel Type	304 Stainless Steel For Exterior Material, 316 Stainless Steel For Key Components Material	Cooling Type	Ventilated
Water Temperature Range	50°F	Applications	Perfect For Coffee Shops, Hotels, Bars, Milk-Tea Bars, Cold Drinks Bars & Other Places
Temperature Control	Adjustable Ice Thickness Settings	Operation Type	One-Button Operation
Compressor Type	High Efficiency Compressor	Insulation Type	6-Sided Cyclopentane Foam Insulation
Frame Material	Riveted, Weld-Free Sheet Metal Construction	Design	Dual Side Air Filter Design
Configuration	Split Condenser	Bin Type	With Bin
