PRODUCT OVERVIEW

The ProKitchen Series Tray Slide is designed for commercial kitchens, cafeterias, buffet counters, and foodservice serving lines. It features a single tray slide constructed from 304 stainless steel with a silver finish. The unit measures 60" (L) x 10.2" (W) and is compatible with refrigerated self-service buffet tables and cold food tables used in commercial foodservice operations.

The ProKitchen Series Tray Slide is manufactured from stainless steel with a 304 stainless steel grade. The single tray slide configuration supports tray placement and movement along buffet and cafeteria serving stations. Its design is suitable for organized foodservice layouts where customer tray access is required.

The ProKitchen Series Tray Slide is designed for installation on either the front or back sides of compatible service counters. The 10.2-inch depth supports integration into buffet lines and cafeteria setups without extending significantly into serving areas. The stainless steel construction is suitable for routine commercial kitchen use.

The ProKitchen Series Tray Slide is intended for buffet or cafeteria needs and supports serving line configurations used in foodservice environments. It is compatible with refrigerated self-service buffet tables and cold food tables. The unit includes a 1-year warranty by the manufacturer.
