WARRANTY
1 Year Warranty

SPECIAL FEATURES

- ✓ **Consistent Chill Zone**
A temperature range of 36°F to 46°F keeps refrigerated pastries and bakery items at safe holding temperatures across a full service shift.

✓ **Certified for Commercial Use**
ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized safety and energy standards required in commercial kitchen and food-retail environments.

✓ **Low-Intervention Defrost**
Automatic defrost cycles handle ice management without staff scheduling manual defrost, reducing interruptions during busy service periods.
- ✓ **Effortless Cleaning Access**
The front curved glass swings up on its own, allowing staff to wipe down the interior without removing shelving or disassembling the case.

✓ **Stable on Any Floor**
Included leg levelers allow the freestanding unit to sit flush and steady on uneven tile or concrete flooring found in many restaurant and bakery spaces.

✓ **Backed by Warranty**
The unit comes with a 1-Year Warranty, providing a defined coverage period for commercial kitchen operators after purchase.

PRODUCT OVERVIEW

The Frigomax Series Refrigerated Bakery Display Case is a freestanding curved-glass merchandiser designed for restaurants, cafés, patisseries, and commercial kitchens that display pastries, cakes, and other refrigerated baked goods at point of sale.

The cabinet holds 19.7 cubic feet of interior storage and maintains a temperature range of 36°F to 46°F, making it suitable for keeping perishable bakery items at safe serving temperatures throughout the day. Automatic defrost keeps the interior consistent without requiring staff intervention, and the stainless steel interior supports routine sanitation in a food-handling environment.

The curved double tempered glass front panel offers a clear view of displayed items from multiple angles, while the front glass swings up to allow easy cleaning access without moving product. Leg levelers are included so the unit sits stable on uneven flooring common in older restaurant and retail spaces. LED lighting illuminates the display interior to improve visibility for customers browsing the case.

At 26.8" (D) x 70.9" (W) x 47.2" (H), the unit fits along a counter wall or as a freestanding display island. It runs on 110V / 60Hz, draws 5.8 amperes, and is rated at 600 watts. The refrigerant type is R-290, and the unit carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications. A 1-Year Warranty is included with the unit.
