PRODUCT OVERVIEW

The KitchenCore Series Countertop Gas Griddle is a gas-powered griddle designed for chefs and operators in commercial kitchens, restaurants, and foodservice operations. It is suitable for high-volume cooking and surface grilling applications.

This unit operates on Natural Gas or Liquid Propane with six burners, each rated at 30,000 BTU/hr, for a total heat output of 180,000 BTU/hr. It features manual controls and a pilot light valve system, allowing direct adjustment of heat across the smooth, polished steel griddle plate. The plate supports a temperature range from 200 °F to 450 °F, accommodating varied cooking tasks.

The griddle is constructed from stainless steel with a silver finish and includes heavy-duty adjustable legs for stable countertop installation. A 4.5 in removable grease drawer manages cooking residue and supports food handling safety. LP conversion is included for flexible gas use in different commercial kitchen setups.

The unit measures 72 in width × 28.7 in depth × 15.4 in height, with a shipping weight of 759 lb and shipping dimensions of 63 in width × 28.7 in depth × 19.25 in height. It is NSF Certified and ETL Listed for commercial foodservice use. The griddle includes a 1 year limited warranty by the manufacturer.
