WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Safe Holding Temps**
 The 36°F to 46°F temperature range keeps chilled pastries and cream-based baked goods within food-safe holding limits during service.
- Easier Daily Cleaning**
 The front glass swings up to open wide, allowing staff to wipe down the stainless steel interior without awkward reach or disassembly.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized commercial kitchen safety and energy standards.
- Clear Merchandise View**
 Straight-glass panels with double tempered glass give customers and staff an unobstructed sightline to displayed items from the front and sides.
- Compact Floor Footprint**
 At 35.4" wide and 26.8" deep, this freestanding unit fits into tight bakery or café service areas without displacing other equipment.
- One-Year Coverage Included**
 The 1-Year Warranty provides a defined period of manufacturer coverage from the date of purchase for commercial kitchen operators.

PRODUCT OVERVIEW

The Frigomax Series refrigerated bakery display case is designed for restaurants, cafés, and bakeries that need a reliable countertop-height unit to present chilled pastries, cakes, and baked goods at safe holding temperatures.

This freestanding unit maintains a temperature range of 36°F to 46°F, making it suitable for displaying cream-filled pastries, mousses, and other temperature-sensitive baked items throughout a service shift. The 13.1 cubic foot interior is lined with stainless steel for durability and easier sanitation, while automatic defrost reduces the need for manual intervention during busy periods.

The straight-glass design features double tempered glass on the door and display panels, giving customers a clear, unobstructed view of merchandise from multiple angles. The front glass swings up to provide easy cleaning access to the interior, and included leg levelers allow stable placement on uneven floors. LED lighting illuminates the interior without generating excess heat inside the cabinet.

The unit runs on 110V / 60Hz power at 390 watts, drawing 4 amperes, and uses R-290 refrigerant. At 35.4" (W) x 26.8" (D) x 47.2" (H), it fits into compact bakery or café floor plans without a large footprint. The Frigomax Series display case is ETL Listed, ETL Sanitation Listed, and DOE Compliant, and is covered by a 1-Year Warranty.
