- Warranty Support**
 It includes a 1-year warranty by the manufacturer for standard use.

PRODUCT OVERVIEW

The ChefPro Series Grease Trap is designed for grease management in commercial kitchen environments. The unit is constructed with 201 stainless steel and features a silver finish, supporting durability for daily food handling operations. It is supplied fully assembled, supporting immediate installation in kitchen setups.

This grease trap includes a side inlet design for connection to drainage systems. It is equipped with locking devices and a rubber ring seal, supporting secure closure during operation. Additional features include a faucet switch and a lifting handle, supporting handling and maintenance tasks.

The unit measures 23.82" (L) x 12" (W) x 11.22" (H), supporting placement under sinks or workstations in commercial kitchens. The compact structure supports integration into existing plumbing layouts.

It is suitable for grease separation applications in food service environments. It includes a 1-year warranty by the manufacturer, supporting standard operational coverage.
