- Durable Construction**
 Vinyl-coated steel exterior with a black finish and stainless steel top, interior walls, floor, and ceiling provide durability and resistance to daily commercial wear.
- Secure Storage**
 Equipped with a keyed lock to protect inventory.

PRODUCT OVERVIEW

The IceVault Series IVBBC72 Back Bar Cooler is designed for bars, restaurants, and catering setups that need efficient cold storage for beverages. With a 19 cubic feet capacity, it provides ample storage for drinks and ingredients. Built with a stainless steel interior and black vinyl-coated steel exterior, it offers durability and a clean finish. Three sliding glass doors feature a self-closing mechanism to help maintain temperatures, while a keyed lock adds secure access.

Measuring 72.8 (W) x 24.4 (D) x 35.6 (H) inches, this freestanding cooler operates with a 3/7 HP compressor using R290 refrigerant, keeping contents between 33°F and 40°F. Running at 115 V, 1 phase, 60 Hz, and 4.1 A with a NEMA 5-15P plug, it is compatible with standard commercial electrical setups. Interior LED lighting improves visibility, and four adjustable PVC-coated shelves allow flexible organization for different drink and ingredient sizes.

Heavy-duty construction ensures stability during daily use, while ETL Listed and ETL Sanitation certifications confirm compliance with commercial safety and sanitation standards. This commercial beverage cooler comes with a 1-year parts and labor warranty and a 1-year compressor warranty, supporting consistent operation in busy bar or restaurant environments.
