- Rotating Design**
 The rotating mechanism opens 180 degrees and includes an ergonomic handle and drip tray as part of the unit design.
- Certified Construction**
 The waffle maker is CE Certified and ETL Listed. It includes a 6-month warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Belgian waffle maker is suitable for restaurants, cafés, hotels, and other commercial kitchen breakfast stations. It features a round, single 7" aluminum grid with a non-stick surface and prepares up to 20 waffles per hour. The unit measures 10" (L) x 21" (W) x 11.75" (H).

The waffle maker operates on 120 V, 1 phase, 60 Hz electric power with a 1100 W heating element and 9.17 A electrical rating. It features adjustable temperature control with a maximum temperature of 445°F. A digital control panel and digital timer are integrated for operation, and a NEMA 5-15P plug with a 55.13" power cord is included.

The unit includes a rotating design that opens 180 degrees and features an aluminum grid with a non-stick coating. It accommodates waffles up to 7 1/2" in diameter and includes a drip tray for collecting overflow. An ergonomic handle is included for handling during operation.

The ChefPro Series waffle maker includes indicator lights with a green power light and an orange preheat light. It is CE Certified and ETL Listed. It includes a 6-month warranty by the manufacturer. The silver aluminum construction is specified for commercial kitchen waffle preparation.
