WARRANTY

1 Year Warranty

SPECIAL FEATURES

- Generous Display Room**
 The 28.2 cu ft interior holds a wide variety of bakery and deli items across a single counter run, reducing how often staff restock during peak service hours.
- Low-GWP Refrigerant**
 R-290 refrigerant is a low global-warming-potential option that aligns with evolving commercial kitchen and regulatory refrigerant standards.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm this case meets electrical safety, sanitation, and energy requirements for restaurant and foodservice environments.
- Clear Customer Sightlines**
 The straight glass front gives customers and chefs a direct, unobstructed view of displayed items, supporting faster self-selection at the counter.
- Simple Electrical Setup**
 At 110V, 60Hz, and 8.1 amperes, the case plugs into a standard commercial outlet, avoiding the cost and time of dedicated high-voltage wiring.
- Covered After Purchase**
 The included 1-year warranty gives buyers a defined service period following purchase, a useful consideration when budgeting for commercial kitchen equipment.

PRODUCT OVERVIEW

The Frigomax Series straight glass bakery display case is a freestanding refrigerated and dry display unit suited for bakeries, cafes, delis, and restaurants that present pastries, breads, and chilled items to customers at the counter.

With a 28.2 cubic foot interior and a footprint of 44.5" (L) x 76.4" (W) x 46.9" (H), this cabinet offers generous merchandising space without requiring a built-in installation. The straight glass front provides a clear, unobstructed view of displayed goods from the customer side.

The unit runs on a gravity coil cooling system charged with R-290 refrigerant, a low-GWP option suited for commercial kitchen environments with refrigerant regulations in mind. It maintains a temperature range of 30.2 to 41 degrees Fahrenheit, suitable for chilled bakery and deli items. LED lighting illuminates the interior, drawing attention to displayed products without generating excess heat.

Operating at 110V and 60Hz, the case draws 8.1 amperes at 560 watts, allowing it to plug in to a standard commercial outlet without special wiring. It carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications. A 1-year warranty is included with each unit.
