- ✓ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer, defining coverage for commercial kitchen use.

PRODUCT OVERVIEW

The ChefPro Series Conveyor Toaster is designed for commercial kitchen operations handling bagels, bread, and hot dogs. It features 304 stainless steel construction with a silver finish, supporting structured food preparation environments. The unit measures 14.6" (W) x 20.5" (D) x 15.2" (H), aligning with countertop installation. It operates on 110 V electric power with a wattage of 1900 W for consistent heating in restaurant settings.

This conveyor toaster is built with heavy-duty commercial construction, supporting repeated use in food service operations. It includes 7 programs along with 3 baking modes for bread, buns, and standby, supported by 7 heating levels. The unit features front and rear discharge options, supporting flexible workflow in commercial kitchen environments.

The toaster supports a production capacity of up to 450 slices per hour, aligning with high-volume commercial kitchen requirements. It includes a removable crumb tray, supporting cleaning and maintenance routines in food handling areas. The design includes non-slip feet, supporting stable countertop placement during operation.

This unit includes built-in air vents for heat dissipation, supporting operational temperature management. It is designed in a modern style under the ChefPro Series, aligning with contemporary commercial kitchen setups. It includes a 1-year warranty by the manufacturer, defining coverage terms for commercial kitchen use.
