SPECIAL FEATURES

- Remote Refrigeration System**
 The remote refrigeration system supports refrigerated storage applications in commercial kitchen environments.
- Flush-Mounted Door**
 The self-closing flush-mounted door supports regular access during commercial kitchen workflow.
- Polyurethane Insulation**
 The polyurethane insulation with 4" thickness and R-28 thermal resistance supports refrigerated holding conditions.
- Valve Configuration**
 The thermostatic expansion and liquid line solenoid valve (TXV/TEV) setup supports refrigeration system operation.
- Commercial Certifications**
 UL Listed US, NSF Listed, and DOE certifications support commercial refrigeration and food handling applications.
- Solid Swing Door**
 The solid swing door design supports cold storage access in restaurant and food handling operations.
- Keyed Lock Access**
 The keyed lock configuration supports controlled entry to refrigerated foodservice storage areas.
- Galvanized Steel Build**
 The white galvanized steel construction with 24-gauge material supports commercial kitchen cold storage environments.
- Included Components**
 The unit includes both the condensing unit and evaporator for refrigeration installation.
- Warranty Coverage**
 It includes a 10-year panel warranty, 1-year parts warranty on doors, and 1-year compressor and parts warranty on the remote refrigeration unit by the manufacturer.

PRODUCT OVERVIEW

The PolarBox Series walk-in cooler is designed for commercial kitchen refrigerated storage in restaurants, foodservice operations, and hospitality facilities. It features white galvanized steel construction with 24-gauge material for cold storage environments. The unit measures 276" (L) x 118" (W) x 87" (H) with a nominal 23 ft depth and 10 ft width configuration.

This 1-door walk-in cooler includes a solid swing door with a 77" door height for refrigerated storage access in commercial food handling areas. The self-closing flush-mounted door supports daily commercial kitchen workflow while the keyed lock provides controlled access. The modular cam-lock tongue and groove hinge design supports panel connection, and the unit includes a standard galvanized steel floor.

The walk-in cooler uses a remote refrigeration system and includes both the condensing unit and evaporator. The thermostatic expansion and liquid line solenoid valve (TXV/TEV) configuration supports refrigeration operation in commercial kitchen applications. The unit operates on 208/230 V, 1 phase, 60 Hz electrical service with a hardwired connection.

Polyurethane insulation with 4" insulation thickness and R-28 thermal resistance supports refrigerated holding conditions. The unit is suitable for indoor and outdoor usage and uses CFC and HFC free material construction. It is UL Listed US, NSF Listed, and DOE compliant. The unit is proudly made in America and includes a 10-year panel warranty, 1-year parts warranty on doors, and 1-year compressor and parts warranty on the remote refrigeration unit by the manufacturer.
