PRODUCT OVERVIEW

The ProKitchen Series Tray Slide is designed for commercial kitchens, cafeterias, buffet counters, and foodservice serving lines. It features a single tray slide constructed from 304 stainless steel with a silver finish. The unit measures 72" (L) x 10.2" (W) and is compatible with refrigerated self-service buffet tables and cold food tables used in commercial foodservice environments.

The ProKitchen Series Tray Slide is manufactured from stainless steel with a 304 stainless steel grade. The single tray slide configuration supports tray placement and movement along buffet and cafeteria serving stations. Its extended 72-inch length provides coverage across larger serving line sections used in foodservice operations.

The ProKitchen Series Tray Slide is designed for installation on either the front or back sides of compatible service counters. The 10.2-inch depth supports integration into buffet lines and cafeteria layouts. The stainless steel construction is suitable for routine use in commercial kitchen environments and foodservice serving areas.

The ProKitchen Series Tray Slide is intended for buffet or cafeteria needs and supports serving line configurations used in self-service food operations. It is compatible with refrigerated self-service buffet tables and cold food tables. The unit includes a 1-year warranty by the manufacturer.
