- ✓ **Adjustable Positioning**
Four adjustable legs with adjustable feet and 6-inch leg height support placement on different floor surfaces.
- ✓ **Warranty Coverage**
It includes a 1-year parts and labor warranty by the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Ice Storage Bin is designed for commercial kitchens, beverage stations, and foodservice operations, particularly in space-constrained kitchens. It features a 305 lb ice storage capacity for storing ice used in restaurants, cafes, and catering environments. The unit is constructed with 304 stainless steel and plastic molding and measures 22" (L) x 33.8" (W) x 46.4" (H). A freestanding design supports flexible placement within commercial kitchen layouts.

The ProKitchen Series Ice Storage Bin includes a lift-up door with a spring-loaded mechanism that stays open when fully raised. The bin interior is constructed from polyethylene and is specified as sanitary for ice storage applications. Polyurethane insulation is incorporated into the cabinet structure to support insulated ice storage. A rear drain hole is included for drainage management.

The ProKitchen Series Ice Storage Bin features four adjustable legs with adjustable feet and 6-inch leg height for positioning on various floor surfaces. The stainless steel exterior includes 304 stainless steel construction for foodservice environments. The freestanding configuration supports installation in commercial kitchens where dedicated ice storage is required.

The ProKitchen Series Ice Storage Bin is ETL Sanitation Listed for commercial foodservice applications. Included accessories consist of an ice scooper, water hose, and water drain hose. The unit is intended for space-constrained kitchens and includes a 1-year parts and labor warranty by the manufacturer. The combination of stainless steel and plastic molding forms the overall cabinet construction.
