- Warranty Coverage**
 It includes a 1-year warranty by the manufacturer for commercial foodservice use.

PRODUCT OVERVIEW

The ChefPro Series Tandoor Oven is a freestanding gas-powered cooking unit designed for commercial kitchen applications including restaurants, catering kitchens, and food preparation areas. It is suitable for preparing Nandory naan, pizza, chapati, tortilla, Lubnani khubze, and similar flatbread items.

The tandoor oven features stainless steel construction with a silver finish. The material supports routine food handling and cleaning requirements in commercial kitchen environments. Its freestanding structure allows placement in different cooking line arrangements.

This gas tandoor oven supports both natural gas and liquid propane gas connections. It includes automatic temperature control for regulated heat operation during cooking tasks. The unit is suitable for continuous flatbread and oven-based menu preparation.

The unit is equipped with 4 casters for mobility within restaurant kitchens and foodservice operations. The caster configuration supports repositioning during cleaning or kitchen layout adjustments. It includes a 1-year warranty by the manufacturer.
