Removable sliding doors, side panels, and back panels provide access to the enclosed storage section during food handling operations.
- ✓ **Certified Design**  
NSF Listed certification is included for commercial kitchen use, and it includes a 1-year warranty by the manufacturer.

## PRODUCT OVERVIEW

The ProKitchen Series Enclosed Base Worktable is designed for restaurants, foodservice establishments, and commercial kitchen work areas. Constructed from 304 stainless steel with a silver finish, it features a flat work surface and measures 72" (L) x 24" (W) x 34" (H). The tabletop is made from 304 stainless steel and includes a stainless steel hat channel for structural support.

This enclosed base worktable is equipped with two solid sliding doors made from 304 stainless steel. The recessed handles provide access to the enclosed storage compartment, while the removable sliding doors, side panels, and back panels allow access to the interior storage area for kitchen supplies and equipment.

The tabletop has a load capacity of 650 lbs, and the undershelf supports up to 440 lbs. The undershelf is constructed from 304 stainless steel with an aluminum die-cast clamp. Both the table and undershelf feature 18-gauge stainless steel construction suitable for food preparation and storage applications.

The unit is supported by four stainless steel legs with stainless steel sockets and stainless steel bullet feet. It does not include a backsplash and is suitable for commercial kitchen prep stations and food handling areas. The worktable is NSF Listed and includes a 1-year warranty by the manufacturer.
