SPECIAL FEATURES

- Large Capacity**
 18.15 cb3 capacity supports organized food storage and display in commercial kitchen environments.
- Ventilated Cooling**
 Uses ventilated cooling with R290 refrigerant for consistent airflow across stored items.
- Certified Standards**
 CE certified, ETL listed, ETL sanitation listed, and NSF certified for commercial kitchen compliance.
- Wide Display Area**
 13.56 sq.ft. display size supports ingredient visibility for restaurant service and food handling.
- Dixell Thermostat**
 Equipped with a Dixell thermostat for temperature control between 30.2°F to 44.6°F.
- Warranty Coverage**
 Includes a 1-year warranty by the manufacturer for parts and labor.

PRODUCT OVERVIEW

The ChillCore Series Refrigerated Merchandiser for Sandwiches is a freestanding open air / refrigerated unit designed for commercial kitchens, sandwich counters, cafés, and food retail environments. It operates on 220–240 V / 110–127 V with a 50–60 / 60 Hz frequency and is built for commercial food display applications using ventilated cooling for air circulation across the cabinet.

The structure is made from powder coated steel and glass in a black finish with curved glass construction. It measures 62" (W) x 33.15" (D) x 57.48" (H), suitable for floor-based commercial sandwich and prepared food merchandising setups. The unit is supported by 4 casters for positioning in service areas.

Temperature is maintained between 30.2°F and 44.6°F using a Dixell thermostat system. Italian-made PTC heaters are integrated into the system to support stable internal conditions in food display environments, working alongside R290 refrigerant and an Embraco compressor.

This model includes LED lighting for product visibility and a 304 stainless steel pan for food placement. It is CE Certified, ETL Listed, ETL Sanitation Listed, and NSF Certified, and includes a 1-year warranty by the manufacturer.
