SPECIAL FEATURES

- Capacity**
 A 17 cubic foot interior provides ample cold storage space for ingredients, prepared foods, and beverages in a commercial kitchen undercounter installation.
- EC Fan Motor**
 The EC fan motor automatically stops when a door is opened, limiting cold-air displacement during food handling and service operations.
- Heavy-Duty Caster Mobility**
 Heavy-duty casters with brakes allow the unit to be relocated easily on the kitchen floor and locked securely in position during daily operation.
- Electronic Temperature Control**
 An electronic control system maintains the cabinet between 33–41°F, supporting consistent refrigeration across the full storage capacity.
- ETL Safety Certification**
 ETL Listed and ETL Sanitation Listed certifications indicate the unit meets established safety and sanitation requirements for commercial food service environments.
- Adjustable Epoxy Shelves**
 Two adjustable epoxy-coated shelves support flexible interior organization and resist corrosion in the demanding conditions of a commercial kitchen.

PRODUCT OVERVIEW

Frigomax Series 60-inch Undercounter Refrigerator is designed for commercial kitchens and restaurants that require reliable cold storage in a space-efficient, below-counter footprint. With 2 solid doors and a 17 cubic foot capacity, this unit fits naturally into prep lines, service counters, and high-traffic food handling environments.

The refrigerator holds a temperature range of 33–41°F, maintained through an electronic control system and a 1/4 horsepower compressor drawing 2.1 amperes at 115V/60Hz on a single-phase circuit. It connects via a standard NEMA 5-15P plug, making installation straightforward in most commercial kitchen setups. Overall dimensions are 30" (L) x 60-1/4" (W) x 35-9/16" (H), sized to slide under standard counters without modification.

Self-closing doors with a 90-degree stay-open feature support efficient workflow during active service periods. The EC fan motor stops operating when a door is open, reducing unnecessary cold-air loss and supporting consistent interior temperatures. Both doors are hinged left and right respectively, and each is secured with included locks and keys for added access control in shared commercial kitchen settings.

Interior shelving consists of 2 adjustable epoxy-coated shelves, offering flexible organization for various food storage containers and ingredients. Heavy-duty casters with brakes allow the unit to be repositioned on the kitchen floor without tools, then locked firmly in place during service. ETL Listed and ETL Sanitation Listed certifications confirm this refrigerator meets recognized safety and sanitation standards for commercial food service use. A 1-year warranty is included with each unit.
