- ✓ **Universal Fit Design**
The universal fit design is compatible with commercial deep fryers used in food service environments.
- ✓ **Slide-On Installation**
The slide-on design supports straightforward installation on compatible commercial fryer stations.
- ✓ **Warranty Included**
It includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Fryer Shield Splash Guard is designed for commercial kitchens using deep fryers in restaurants, cafés, food courts, and food service operations. Constructed from 304 stainless steel with an 18-gauge thickness, it features a silver finish and a universal fit design suitable for various commercial fryer setups.

This fryer splash guard is designed to protect surrounding walls and equipment from grease splatters generated during frying operations. The shield provides separation between the fryer and adjacent surfaces, supporting cleaner food preparation areas in commercial kitchens.

The slide-on installation design allows placement without complex assembly requirements. Its space-saving construction is suitable for commercial kitchen layouts where fryer stations are positioned close to walls or nearby equipment.

The splash guard measures 20.5" (L) x 18" (H) and is compatible with commercial deep fryers. The unit weighs 18 lb, with shipping dimensions of 21" (L) x 2" (W) x 20" (H) and a shipping weight of 20 lb. It includes a 1-year warranty by the manufacturer.
