SPECIAL FEATURES

- Step-Up Design**
 The step-up design supports organized placement of coffee decanters on commercial kitchen beverage stations.
- Independent Controls**
 Independent toggle controls provide separate operation of each warming surface.
- Certified Construction**
 ETL Listed, UL Listed, and cETLus Listed for commercial kitchen environments.
- Double Burner Setup**
 The double burner configuration allows warming of multiple coffee decanters simultaneously.
- Electric Operation**
 The unit operates at 200 W, 120 V, 1 phase, and 60 Hz for coffee holding applications.
- Warranty Included**
 It includes a 1-year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Decanter Warmer Plate is a countertop coffee warming unit designed for cafés, restaurants, hotels, and commercial kitchen beverage stations. Constructed from stainless steel with a silver finish, it features a step-up design and a double burner configuration for holding coffee decanters during service.

The unit operates on 120 V electric power, 1 phase, 60 Hz, with a power rating of 200 W and 1.66 A. It includes a NEMA 5-15P plug for electrical connection, making it suitable for countertop installation in commercial kitchen coffee service areas.

The warmer plate features independently controlled warming surfaces with independent toggle controls. The coffee pot warmer design allows separate operation of each burner, supporting beverage holding at different service points throughout the day.

The unit maintains a temperature range of 80°F to 84°F and measures 5.91" (L) x 14.37" (D) x 7.67" (H). It is ETL Listed, UL Listed, and cETLus Listed for commercial kitchen use. It includes a 1-year limited warranty by the manufacturer.
