WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Generous Display Room**
 The 28.6 cu ft interior holds a broad assortment of bakery and refrigerated items, reducing how often staff need to restock during a service period.
- Safe Holding Temperatures**
 A gravity coil system maintains 28.4 to 35.6 degrees Fahrenheit, keeping cream-filled pastries, sandwiches, and chilled confections within safe food handling ranges throughout service.
- Recognized Safety Certifications**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant ratings confirm the unit meets established electrical safety, sanitation, and energy efficiency requirements for commercial food service use.
- Clear Customer View**
 The curved glass front gives customers an unobstructed sightline to displayed items from multiple angles, supporting self-guided purchasing decisions at a bakery or deli counter.
- Low-GWP Refrigerant**
 R-290 refrigerant carries a significantly lower global warming potential than older refrigerant types, supporting a commercial kitchen's environmental compliance without performance trade-offs.
- Simple Plug-In Setup**
 Operating on 110V/60Hz at 12 amperes, this freestanding unit connects to a standard commercial kitchen outlet, avoiding the cost and time of dedicated electrical installation.

PRODUCT OVERVIEW

The Frigomax Series curved glass dry and refrigerated bakery display case is a freestanding serve-over counter unit designed for restaurants, cafes, bakeries, and other commercial kitchen environments where attractive, accessible food presentation matters.

This unit offers 28.6 cubic feet of display capacity, giving a busy bakery or deli counter ample room to present a wide variety of pastries, breads, and refrigerated items. The curved glass front provides customers with a clear, unobstructed view of merchandise from multiple angles, supporting a professional retail presentation without staff intervention.

Refrigeration is handled by a gravity coil system maintaining a temperature range of 28.4 to 35.6 degrees Fahrenheit, keeping cream-filled pastries, sandwiches, and chilled confections within safe holding temperatures. The unit uses R-290 refrigerant, a low-GWP option aligned with current environmental guidelines. Operating on 110V/60Hz and drawing 12 amperes, it plugs into a standard commercial kitchen circuit without special wiring.

At 52.4 inches wide, 45.8 inches deep, and 48.6 inches tall, the case fits along a service counter or open floor space in a retail or food service setting. It is ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant, meeting recognized commercial food safety and energy standards. A 1-year warranty is included with each unit.
