PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer is designed for restaurants, hotels, catering kitchens, and commercial food handling operations requiring frozen storage. It features white galvanized steel construction with 24 gauge panels suitable for commercial kitchen environments. The unit measures 138" (W) x 138" (D) x 91" (H) with nominal dimensions of 12 ft width, 12 ft depth, and 7 ft height.

This walk-in freezer uses a top mounted refrigeration system with R-448A refrigerant for commercial cold storage applications. It operates on a 1 phase, 208/230 V, 60 Hz electrical configuration with hardwired installation. The condensing unit and evaporator are included for refrigeration setup.

The unit features 4 in polyurethane insulation with R-28 thermal resistance for frozen storage conditions in foodservice operations. The modular cam-lock, tongue & groove panel system supports structured assembly. CFC & HFC free insulation material supports indoor and outdoor commercial installation.

The freezer includes one solid self-closing flush-mounted door with a 77 in height and keyed lock for controlled access. Additional features include a heating wire and pressure relief vent. It includes a standard galvanized steel floor and a 10-year panel warranty, 1-year door parts, 2-year compressor & parts, and 1-year labor on refrigeration unit.
