PRODUCT OVERVIEW

The KitchenCore Series gas range is designed for commercial kitchens handling multi-burner cooking and oven use. It features stainless steel construction with a silver finish and measures 36" (L) x 32" (W) x 61.4" (H). The unit includes 6 cast iron open burners with two ring flame configuration and 1 oven with a stainless steel J-type burner, along with an imported thermostat for control.

Each burner delivers 26,300 BTU/hr, with a total output of 184,800 BTU/hr (NG), while the oven provides 27,000 BTU/hr within a temperature range of 212°F to 572°F. It operates on natural gas with a 3/4" connection and 5" W.C. inlet pressure, using independent pilot ignition per burner. Heavy-duty cast iron grates and metal knobs with heat-resistant grips support operation.

The oven includes 2 nickel-plated racks with dimensions of 26.5" (W) x 22.5" (D) x 14.5" (H). Additional features include anti-clogging lift-off burners with no gaskets or screws, removable crumb tray, and a stainless steel high riser backsplash with shelf. It includes casters for positioning. Shipping dimensions are 36.8" (L) x 37.7" (W) x 38.2" (H) with a shipping weight of 342 lb. It includes a 1-year warranty by the manufacturer and is listed in scratch and dent condition.

Condition: Slight dent on both sides and the tray gets stuck a little. No packaging.
