WARRANTY

1 Year Warranty

SPECIAL FEATURES

✓ Clear Product Visibility

The swing glass door lets customers and staff view stored items at a glance without opening the cabinet, supporting faster service on a busy floor.

✓ Flexible Shelf Layout

Four adjustable heavy-duty epoxy-coated shelves allow staff to reconfigure interior storage to accommodate bottles, food containers, or varied packaging sizes as menu needs change.

✓ Sanitation Certified

ETL Listed and ETL Sanitation Listed certifications confirm this merchandiser meets recognized electrical safety and food service hygiene standards for commercial use.

✓ Fits Tight Spaces

At just 19 5/8" wide and 23 1/2" deep, this freestanding unit slides into compact service areas or back-of-house corners where larger merchandisers would not fit.

✓ Low Power Draw

Running at 2.3 amps on a standard 115V/60Hz NEMA 5-15P outlet, this unit plugs into existing commercial kitchen circuits without requiring dedicated high-amperage wiring.

✓ Covered for a Year

This unit is backed by a 1-year warranty, giving food service operators a defined period of manufacturer support after purchase.

PRODUCT OVERVIEW

The Frigomax Series VSC288VCW is a single-section commercial merchandiser refrigerator designed for restaurants, cafes, convenience counters, and other food service operations that need reliable front-of-house or back-of-house cold beverage and food display.

With an 8.8 cu. ft. interior and four adjustable, heavy-duty epoxy-coated shelves, this unit delivers organized storage in a compact 23 1/2"L x 19 5/8"W x 70 7/8"H footprint — ideal for kitchens and service areas with limited floor space. The right-hinged swing glass door offers clear cabinet visibility without needing extra clearance for sliding hardware.

Temperature is maintained electronically at 33°F–41°F, keeping perishables safe for commercial food handling. Auto defrost reduces manual maintenance, while interior LED lighting illuminates items without generating heat. The 1/5 HP compressor draws 2.3A at 115V/60Hz single-phase power through a standard NEMA 5-15P plug, allowing easy connection in most commercial kitchens.

The exterior is constructed of coated steel for durability in day-to-day service conditions. As a freestanding unit, installation requires no built-in cabinetry. The Frigomax Series VSC288VCW carries ETL Listed and ETL Sanitation Listed certifications, confirming it meets established standards for electrical safety and food service sanitation. This unit is covered by a 1-year warranty.
