1 Year Limited Warranty

SPECIAL FEATURES

- High-Power Motor**
 A 0.9 HP, 1100 W pure copper motor supports continuous grinding in commercial kitchen and processing tasks.
- Stainless Steel Blades**
 Two stainless steel blades support routine sanitation and repeated use during meat handling.
- Sausage Tubes Included**
 Three plastic stuffing tubes in 1/2, 2/3, and 3/4 sizes support sausage filling tasks.
- Dual Grinding Plates**
 Two grinder plates in 6 mm and 8 mm sizes provide varied grind textures for food preparation.
- Manual Control Switch**
 Manual switch control with a rocker on/off switch supports direct operation during service.
- Warranty Included**
 It includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Meat Grinder is designed for commercial kitchen staff, home butchering, and small farm processing requiring controlled meat preparation. The industrial-style unit measures 16.34" (L) x 8.27" (W) x 15.04" (H) and features stainless steel and metal construction in a silver finish. Its electric operation supports continuous grinding tasks, and the compact footprint fits prep tables and food handling stations.

The grinder operates with a 0.9 HP motor rated at 1100 watts and uses a pure copper motor type for consistent mechanical performance. Manual switch control with a rocker on/off switch provides straightforward operation during daily use. The 110 V electrical setup supports compatibility with standard outlets in commercial kitchen and processing environments.

Two stainless steel blades support meat processing tasks, paired with 6 mm and 8 mm grinder plates for varied grind sizes. The stainless steel blade material supports routine cleaning and sanitation. Three plastic sausage stuffing tubes in 1/2, 2/3, and 3/4 sizes are included for portioned sausage preparation and controlled filling.

The unit weighs 43 lb, supporting stable placement on prep surfaces during operation. The industrial design aligns with repetitive food handling tasks in small foodservice and processing settings. All components are arranged for direct access and cleaning. It includes a 1-year warranty by the manufacturer for standard operational coverage.
