Included short elbows, 1/2" NPT supply nipples, and lock nuts provide the stated installation components.
- ✓ **Compact Design**
Overall size of 2.19" (L) x 1.75" (H) and weight of 1 lb supports easy handling in commercial settings.
- ✓ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer, as specified.

PRODUCT OVERVIEW

The ChefPro Series Faucet Installation / Parts Kit is a brass installation kit designed for chefs and staff in commercial kitchens, pantries, and foodservice faucet setups. It is constructed from brass material, reflecting the specified durable material for plumbing connections. The kit includes components with a swivel spout, supporting flexible faucet installation.

It is listed with diameter of elbows/nipples at 1-5/8 in, reflecting the stated component sizing for commercial faucet assemblies. Included items are short elbows, 1/2" NPT supply nipples, and lock nuts, as specified for installation purposes. This kit carries ASME A112.18.1 / CSA B125.1 certification, NSF/ANSI/CAN 61 certification, and NSF listing, reflecting compliance with commercial plumbing and water safety standards.

It weighs 1 lb, supporting handling and installation considerations. Overall dimensions measure 2.19" (L) x 1.75" (H), reflecting the size of the included components. It includes a 1-year warranty by the manufacturer, reflecting the stated limited warranty coverage.

The faucet is classified as a wall-mount faucet with a silver finish and includes a 1-year warranty by the manufacturer, supporting standard service coverage in commercial kitchen operations.
