SPECIAL FEATURES

- ✓ **High Capacity**

7.8 cu ft capacity supports beverage storage for bars and cafés using this reliable back bar refrigerator.
- ✓ **Organized Storage**

Two adjustable heavy-duty PVC-coated shelves accommodate bottles and cans in a compact back bar fridge layout.
- ✓ **Reliable Performance**

1/4 HP compressor paired with R-290 refrigerant supports efficient refrigeration with stable output.
- ✓ **Enhanced Visibility**

LED lighting brightens the interior for quick product identification in active bar setups.
- ✓ **Certification Assurance**

ETL Sanitation Listed and cETLus certifications align with commercial foodservice needs.
- ✓ **Durable Construction**

Stainless steel interior walls, floor, and ceiling provide long-term material durability for daily service.
- ✓ **Consistent Cooling**

33°F to 40°F temperature range supports drink holding quality in bar coolers commercial operations.
- ✓ **Convenient Mobility**

Pre-installed swivel-with-brake casters allow repositioning during cleaning or layout changes.
- ✓ **Security Support**

Keyed lock protects beverages and bar inventory during closed hours.
- ✓ **Warranty Coverage**

1-year parts & labor plus 1-year compressor warranty provides manufacturer coverage.

PRODUCT OVERVIEW

The IceVault Series IVBBS23 Back Bar Refrigerator is designed for cafés, bar counters, and beverage stations needing compact cold storage. The unit offers 7.8 cu ft capacity for chilled stock, mixers, and bottled drinks. The exterior uses vinyl-coated black steel and a stainless steel countertop, supporting a clean profile in bar coolers commercial environments.

This back bar fridge includes stainless steel interior surfaces, a solid right-hinged swing door, and two adjustable heavy-duty PVC-coated shelves. The unit measures 24" (W) x 30" (D) x 40" (H) to fit below counters and service stations. Cooling runs between 33°F and 40°F using R-290 refrigerant and a 1/4 HP compressor, controlled by an electronic panel. LED lighting supports visibility during fast service.

Auto defrost helps reduce manual maintenance, and swivel casters with brakes support mobile use in bar coolers commercial workflows. The keyed lock helps secure product during off-hours. The refrigerator runs on 115 V, 1 phase, 60 Hz, drawing 1.92 A through a NEMA 5-15P plug.

The stainless steel top offers additional workspace for bar tools and garnish stations. This solid-door commercial back bar refrigerator carries ETL Sanitation Listed and cETLus certifications and includes 1-year parts & labor plus 1-year compressor warranty coverage.
