SPECIAL FEATURES

- Stainless Durability**
 Stainless steel construction provides long-lasting strength and easy daily cleaning.
- Consistent Production**
 Produces 100 lb of ice in 24 hours to support steady service.
- Convenient Storage**
 Built-in 34 lb bin keeps ice reserves easily accessible.
- Stable Placement**
 Four legs with a 4.3-inch height give reliable balance and clearance for cleaning underneath.
- Controlled Operation**
 Digital controls provide clear settings for managing ice production as needed.
- Efficient Cooling**
 The bottom-mounted compressor with 345 W power and 115 V, 60 Hz operation supports consistent function.
- Certified Standards**
 DOE and ETL certifications confirm compliance with energy and sanitation requirements.
- Warranty Protection**
 A 1-year warranty adds coverage, supporting reliable use of the machine.

PRODUCT OVERVIEW

The ChillCore Series CCUIM100L Undercounter Ice Machine is designed for kitchens, bars, or service areas that need a reliable supply of cube ice in a compact format. Built with stainless steel, it provides durability and easy cleaning for daily use. With overall dimensions of 20 (W) x 14.5 (D) x 33 (H) inches, this freestanding unit with 4.3-inch legs is sized to fit neatly under counters while still offering convenient access.

Producing up to 100 lb of cube ice every 24 hours, this industrial ice maker machine supports steady demand, while the integrated bin stores up to 34 lb at a time to keep reserves on hand. Digital controls allow simple adjustments, and a bottom-mounted compressor powers operation at 345 W on 115 V and 60 Hz. The cube ice type is suitable for a wide range of uses, giving versatility in foodservice environments.

Additional features include an easy-to-clean design that reduces maintenance requirements and stable placement supported by four legs. The machine operates with eco-friendly R-290 refrigerant and is certified by DOE and ETL for energy and sanitation standards. Backed by a 1-year warranty, this unit combines performance and compliance for reliable ice production.
