WARRANTY
10-Year Panel, 1 Year Door Parts

SPECIAL FEATURES

- Robust Build**
24-gauge white galvanized steel panels provide long-lasting durability in commercial environments.
- Stable Power Supply**
Hardwired connection provides reliable operation for cooler and freezer sections.
- Easy Installation**
Modular cam-lock panels with tongue & groove design and CFC/HFC-free materials allow fast assembly and eco-conscious operation.
- Durable Flooring**
Floor supports heavy loads and provides hygienic storage with simple cleaning.
- Certified Quality**
UL Listed US, NSF Listed, and DOE certified to meet strict commercial standards.
- Advanced Insulation**
4-inch polyurethane panels with R-28 cooler / R-33 freezer thermal resistance maintain consistent temperatures and reduce energy loss.
- Secure Access**
Solid swing doors with keyed locks protect contents and limit unauthorized entry.
- Frost Prevention**
Heating wire and pressure relief vent in freezer section reduce ice buildup and regulate internal pressure.
- Flexible Layout**
Two-door design with 59-inch cooler and 59-inch freezer sections enables organized commercial storage.
- Comprehensive Warranty**
10-year panel warranty and 1-year door parts warranty provide long-term support.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer & Cooler Combo Box is ideal for commercial kitchens needing organized cold storage with both freezer and cooler sections. The freezer section measures 59 in in length for low-temperature storage, while the cooler section also measures 59 in in length to store items at standard refrigeration temperatures. The overall product dimensions are 10 ft (L) × 10 ft (W) × 7 ft (H), providing ample space for commercial use.

Made in America, this commercial walk-in freezer & cooler combo box is constructed from 24-gauge white galvanized steel. The unit features flooring and 4-inch-thick polyurethane insulation, maintaining efficient thermal performance. It operates on hardwired 208/230 V, 60 Hz, 1 phase, supporting stable and reliable power for intensive commercial operations. The unit uses R-28 insulation in the cooler section and R-33 in the freezer section for consistent cold retention.

The self-closing, flush-mounted solid doors have keyed locks and swing open easily. The freezer section includes heating wires and a pressure relief vent, supporting proper temperature maintenance. The modular cam-lock, tongue-and-groove panel design uses CFC- & HFC-free materials, giving durable construction while reducing environmental impact.

The unit includes a condensing unit and evaporator, maintaining efficient refrigeration across both sections. It is suitable for indoor and outdoor use, with all necessary features for heavy-duty commercial cold storage. The warranty covers 10-year panels and 1-year door parts, and the certifications include UL listed US, NSF listed, and DOE approved.
