Flat upper and lower plates allow consistent grilling for paninis, sandwiches, and wraps.
- Adjustable Temperature**
One adjustable thermostat allows temperatures up to 572°F for precise cooking control.
- Convenient Cleaning**
Front-mounted grease drawer simplifies cleaning and food service maintenance.
- Medium Cooking Surface**
15" x 11" cooking area accommodates multiple items for medium-scale commercial kitchens.
- Durable Construction**
Stainless steel and ceramic-coated cast iron plates provide long-lasting performance in commercial kitchens.
- Warranty Included**
Includes a 1-year warranty by the manufacturer covering parts and labor.

PRODUCT OVERVIEW

The PrepMaster Series Commercial Electric Panini Grill features flat upper and lower plates designed for grilling paninis, sandwiches, wraps, and toasted bread in commercial food service settings. It offers a 15" x 11" cooking surface with dual heating elements and self-balancing upper plates for even heat distribution. The grill operates on 208–240 V, 10 A, 2,400 W, with an adjustable thermostat reaching up to 572°F for precise temperature control.

Constructed from stainless steel and ceramic-coated cast iron, the grill combines durability with consistent heat retention. Its dimensions are 17.7" (L) x 16.1" (W) x 9.3" (H), and it weighs 50 lb, providing a stable base for daily commercial kitchen use.

The grill includes a front-mounted grease drawer for convenient cleaning and maintenance. Variable control allows the chef to adjust the temperature according to cooking needs, and the plug type is NEMA 6-15P.

Certified by cULus and NSF, the PrepMaster Series PMEPG240F includes a 1-year warranty by the manufacturer covering parts and labor, suitable for commercial kitchens and food service operations.
