SPECIAL FEATURES

- ✓ Dual-Section Display**
Two independent glass swing-door sections let staff or customers access one side without disturbing the temperature zone on the other.
- ✓ Consistent Safe Temps**
Electronic temperature control holds the cabinet between 33°F and 41°F with automatic defrost, maintaining food-safe holding conditions without manual adjustment.
- ✓ ETL Certified for Food**
ETL Listed and ETL Sanitation Listed certifications confirm the unit meets established safety and sanitation standards required in regulated commercial kitchen environments.
- ✓ Flexible Shelf Setup**
Eight adjustable heavy-duty epoxy-coated shelves across 35.3 cu ft allow the interior layout to be reconfigured around different container sizes and restocking needs.
- ✓ Standard Outlet Compatible**
Operating at 115V/6A on a NEMA 5-15P plug means the unit connects to a standard commercial kitchen circuit without dedicated electrical installation.
- ✓ Included Security Hardware**
Locks and keys ship with the unit, giving operators the option to secure refrigerated contents in shared or customer-facing food service settings.

PRODUCT OVERVIEW

The Frigomax Series 2-door glass merchandiser refrigerator is a freestanding unit designed for commercial kitchens, restaurants, convenience stores, and food service operations that need reliable refrigerated display with easy customer or staff access.

Measuring 29 3/8" (D) x 51 1/8" (W) x 77 5/8" (H), this unit holds 35.3 cubic feet of refrigerated product across two independent sections, each with its own swing glass door hinged on opposite sides for flexible placement along a wall or service line. Eight adjustable heavy-duty epoxy-coated shelves allow operators to configure storage around containers of varying heights, from beverage bottles to food trays.

Temperature is maintained between 33°F and 41°F through an electronic temperature control system with automatic defrost, keeping refrigerated items within safe holding ranges without manual intervention. LED lighting illuminates both sections clearly, making contents visible through the glass doors in front-of-house or back-of-house environments. The coated steel exterior provides a durable, cleanable surface suited to busy food handling areas.

The unit runs on 115V/60Hz single-phase power at 6 amps, drawing from a standard NEMA 5-15P outlet — no special electrical work required for most commercial kitchen installations. Locks and keys are included with the unit, allowing operators to secure contents when needed. The Frigomax Series VSC1088VCW carries ETL Listed and ETL Sanitation Listed certifications and is backed by a 1-year warranty.
