WARRANTY

1 Year Warranty

SPECIAL FEATURES

- ✓ **Large Display Capacity**
The 30.9 cu ft interior holds a wide variety of bakery and prepared food items, reducing how often staff need to restock during a busy service period.
- ✓ **Low-GWP Refrigerant**
R-290 refrigerant carries a low global warming potential, making this display case a more environmentally responsible choice for restaurants and bakeries.
- ✓ **Triple Certification Confidence**
ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm that the unit meets recognized safety, sanitation, and energy efficiency standards for commercial food service.
- ✓ **Safe Holding Temperature**
A temperature range of 30.2 to 41 degrees Fahrenheit keeps perishable bakery goods within food-safe parameters throughout the day in a commercial kitchen.
- ✓ **Standard Electrical Compatibility**
Operating at 110V/60Hz and drawing 9.2 amperes at 690 watts, this unit connects to standard commercial kitchen circuits without special wiring or additional electrical work.
- ✓ **Covered by Warranty**
This display case is backed by a 1-year warranty, giving commercial kitchen operators a defined period of manufacturer coverage after purchase.

PRODUCT OVERVIEW

The Frigomax Series 101.6" dry and refrigerated bakery display case is a serve-over-counter unit built for commercial kitchens in bakeries, cafes, delis, and restaurants that need to present chilled baked goods, pastries, and prepared foods in a customer-facing format.

This freestanding display case holds 30.9 cubic feet of refrigerated product and maintains a temperature range of 30.2 to 41 degrees Fahrenheit, keeping perishable bakery items at safe holding temperatures throughout service. The straight glass front gives customers and staff a clear, unobstructed view of displayed items from multiple angles.

Measuring 101.6 inches (L) x 37.4 inches (D) x 46.9 inches (H), the unit occupies a defined footprint suitable for front-of-house placement or counter runs in commercial food service environments. It operates on 110V/60Hz power, draws 9.2 amperes, and consumes 690 watts, making it compatible with standard commercial kitchen electrical infrastructure without requiring a dedicated high-voltage circuit.

The Frigomax Series display case uses R-290 refrigerant, a low global warming potential (GWP) option that aligns with current environmental standards. The unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, and is backed by a 1-year warranty.
