SPECIAL FEATURES

- ✓ **High Ice Production**
Produces 220 lb of half cube ice in 24 hours to meet high-demand operations.
- ✓ **Adjustable Ice Thickness**
Customizable ice size to suit different drinks and foodservice applications.
- ✓ **Low Maintenance**
Self-clean system simplifies upkeep and maintains hygiene.
- ✓ **Flexible Installation**
Freestanding design with 6 ft power cord and NEMA 5-15P plug allows convenient setup.
- ✓ **Large Storage Bin**
80 lb built-in bin keeps ice organized and easily accessible.
- ✓ **Precise Operation**
Digital controls with LED display allow accurate monitoring and easy use.
- ✓ **Stable Placement**
Adjustable leveling feet provide stability on uneven floors.

PRODUCT OVERVIEW

The CoolEdge Series CEIC220 Ice Machine with Bin is a high-performance commercial ice machine designed for commercial kitchens, bars, and catering operations. Constructed from durable stainless steel, it produces 220 lb of half cube ice in 24 hours and features an 80 lb storage bin, ideal for high-demand foodservice environments. The unit includes an auto shut-off system when the bin is full and allows adjustable ice thickness for customized use.

This ice machine operates on 110 V, 60 Hz, 1-phase power with a NEMA 5-15P plug and uses R290 refrigerant for reliable ice production. It features digital controls with an LED display for precise operation. The air-cooled refrigeration provides consistent ice quality, and the self-clean system simplifies maintenance.

Measuring 26 in (W) x 27 in (D) x 38 in (H), the unit is freestanding and equipped with adjustable leveling feet for stability on uneven surfaces. The ice cubes measure 13 mm (W) x 22 mm (D) x 22 mm (H), providing a uniform size for drinks. The machine consumes 526 W and includes a 6 ft power cord for flexible placement. It is backed by a 6-month warranty.
