PRODUCT OVERVIEW

The IceVault Series IVMR4829C Merchandising Refrigerator with 29 cu ft capacity is designed for stores needing a two-section unit with 2 doors, providing a wider layout for product display. Its stainless steel interior paired with a black exterior finish and aluminum back exterior forms a durable cabinet suitable for daily retail use. The unit measures 80 in (H) x 48 in (W) x 26 in (D), giving clarity for space planning.

The glass swing doors with left and right hinges provide clear visibility and familiar access across both sections. Their self-closing feature reduces unnecessary open-door time, while the keyed lock allows restricted entry. Inside, eight adjustable PVC-coated shelves allow flexible product arrangement, and LED lighting enhances clarity throughout the cabinet.

This commercial merchandiser refrigerator operates on 115 V, 4.8 A, 60 Hz, and 1 Phase power, compatible with standard outlets via a NEMA 5-15P plug. Auto-defrost manages frost buildup, electronic control adjusts temperature settings, and the bottom-mounted compressor keeps the refrigeration system accessible. It runs on R-290 refrigerant with a 1/2 HP system.

ETL Sanitation Listed and cETLus certified, the unit comes with a 1 year parts & labor, 1 year compressor warranty for reliable coverage.
