1 Year Warranty

SPECIAL FEATURES

- Chilled and Ambient Display**
 The 30.2 to 41 degree Fahrenheit temperature range allows chefs and bakery staff to display both refrigerated and near-ambient items in a single serve-over counter unit.
- Bright Shelf Lighting**
 LED cabinet lighting combined with under-shelf LED lighting illuminates each glass shelf level, making displayed bakery and food items clearly visible to customers from the front.
- Standard Power Draw**
 At 7.4 amperes and 110 volts, 60 hertz, the unit connects to a standard North American commercial kitchen circuit without requiring dedicated high-amperage wiring.
- Low-GWP Refrigerant**
 R-290 refrigerant is used in the cooling circuit, a lower global warming potential option that aligns with current commercial kitchen environmental standards.
- Certified for Food Service**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm this display case meets recognized safety, sanitation, and energy standards for commercial food handling environments.
- One Year Coverage**
 A 1-year warranty is included, giving restaurant owners and bakery operators a defined service period from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 52" Dry and Refrigerated Bakery Display Case is a freestanding, serve-over counter unit designed for bakeries, cafes, delis, and restaurant front-of-house applications where both ambient and chilled product presentation are needed in one display.

The cabinet operates across a temperature range of 30.2 to 41 degrees Fahrenheit using a gravity coil cooling system charged with R-290 refrigerant, a low global warming potential option increasingly common in commercial kitchen refrigeration. The 18.8 cubic foot interior accommodates a substantial selection of pastries, cakes, sandwiches, and chilled goods, while straight glass panels on all sides give customers and staff an unobstructed view of displayed items.

Interior LED cabinet lighting and under-shelf LED lighting illuminate merchandise evenly from above and below each glass shelf, supporting clear visibility under varying ambient light conditions in a commercial kitchen or retail space. The unit measures 44.5 inches deep, 52.4 inches wide, and 46.9 inches tall, and draws 7.4 amperes at 110 volts, 60 hertz, making it compatible with standard North American commercial kitchen electrical circuits.

The Frigomax Series display case carries ETL Listed and ETL Sanitation Listed certifications, confirming it meets recognized safety and sanitation standards for food handling in commercial environments, and is DOE 2017 Compliant for energy efficiency. A 1-year warranty is included with purchase.
