WARRANTY

10-Year Panel, 1-Year Door Parts, 2-Year Compressor & Parts, 1-Year Labor on Refrigeration Unit

SPECIAL FEATURES

- ✓ **Dual-Zone Storage**
Provides a cooler section and freezer section in one unit, supporting a commercial kitchen's food handling requirements in a combo walk in cooler freezer.
- ✓ **Advanced Insulation**
4-inch polyurethane insulation provides R-28 (cooler) and R-33 (freezer) thermal resistance for stable temperatures.
- ✓ **Top-Mounted Refrigeration**
Includes a condensing unit and evaporator mounted on top for consistent temperature maintenance in both sections of the combo walk in cooler freezer.
- ✓ **Warranty Coverage**
Includes a 10-year panel, 1-year door parts, 2-year compressor and parts, and 1-year labor on the refrigeration unit, supporting serviceability in restaurant settings.
- ✓ **Durable Build**
24-gauge white galvanized steel panels offer structural strength suitable for restaurant environments using a restaurant walk in freezer.
- ✓ **Secure Access**
Solid swing doors with keyed locks and self-closing function provide controlled entry for commercial food handling areas.
- ✓ **Certified Compliance**
UL Listed (US), NSF Listed, and DOE compliant for commercial kitchen standards.

PRODUCT OVERVIEW

The PolarBox Series Combo Walk in Cooler Freezer is designed for commercial kitchens, restaurants, and foodservice operations that require both chilled and frozen storage in a single unit. It is constructed with 24-gauge white galvanized steel, providing structural strength and durability for daily use in a commercial kitchen. The modular cam-lock, tongue-and-groove panel design allows for tight assembly and secure alignment of sections.

The unit measures 12 ft (L) x 5 ft (W) x 7 ft (H), with a cooler section length of 7 ft and a freezer section length of 5 ft. The doors are solid swing type, with a height of 77 in and keyed locks for controlled access, and freezer doors include heating wire and a pressure relief vent. The insulation is 4 inches of polyurethane, offering thermal resistance rated R-28 for the cooler and R-33 for the freezer section.

The refrigeration system is top-mounted with an included condensing unit and evaporator, operating on 208/230 V, 60 Hz, single-phase power, using R-448A refrigerant. The unit is suitable for indoor and outdoor installation and includes a reinforced floor. It is CFC and HFC free and holds certifications including UL Listed (US), NSF Listed, and DOE.

Dual Storage and Warranty for Combo Walk in Cooler Freezer

This Combo Walk in Cooler Freezer also functions as a restaurant walk in freezer, providing both refrigerated and frozen storage in one footprint. It includes a 10-year panel warranty, 1-year door parts warranty, 2-year compressor and parts warranty, and 1-year labor on the refrigeration unit.
