Integrated molded handle supports lifting and placement during food preparation workflows.
- ✓ **NSF Certified**
NSF Certified for commercial food storage and handling applications.

PRODUCT OVERVIEW

The ProKitchen Series Food Pan Lid is designed for commercial kitchens, food preparation stations, buffets, and catering operations requiring secure coverage for standardized food pans. Constructed from clear polycarbonate (PC), it features a rectangular 1/6 size format suitable for use with compatible food pans in commercial kitchen environments.

The lid is designed for use within a temperature range of -40°F to 210°F, supporting cold storage and moderate heat holding applications. The clear design allows visibility of stored ingredients while maintaining coverage during food preparation and storage workflows.

It features a non-stick smooth surface to support ease of handling and cleaning in commercial kitchen operations. A molded handle is integrated into the design to allow lifting and placement on compatible food pans during service and prep activities.

The unit measures 6.9" (L) and is dishwasher safe for cleaning in commercial kitchen workflows. It is NSF Certified for food safety applications and includes a 1-year limited warranty by the manufacturer.
