### SPECIAL FEATURES

- ✓ Durable Build**  
 Stainless steel body and round iron plates built for long-life use in busy commercial waffle stations.
- ✓ Precise Temperature Control**  
 Adjustable heat up to 572°F delivers perfectly cooked waffles.
- ✓ Standard Power Setup**  
 Works with 120 V, 60 Hz, 1-phase connections for easy integration into commercial kitchens.
- ✓ Warranty Coverage**  
 Includes a 1-year limited warranty for dependable performance.
- ✓ Stable Footing**  
 At 18 lb, the waffle maker stays steady on café and restaurant counters.
- ✓ Timed Cooking**  
 3–5 minute timer allows consistent batch cooking.
- ✓ Certified Use**  
 FDA Certified for safe food handling and use in commercial kitchens.

## PRODUCT OVERVIEW

The ChefPro Series WF-2205 Commercial Round Waffle Maker is designed for food trucks, cafés, bakeries, and restaurant breakfast stations that require consistent waffle production. Its stainless steel construction and round iron plates ensure even heat distribution and long-term durability.

Non-stick plates make cooking and cleanup effortless. Adjustable temperature control allows staff to reach up to 572°F, while the 3–5 minute timer keeps cooking cycles efficient. The unit produces one waffle per batch, perfectly suited for steady commercial workflows.

Operating at 1300 W, 120 V, 1 phase, 60 Hz, this waffle maker fits standard commercial kitchen electrical setups. FDA certification ensures safe food-contact compliance, and a 1-year limited warranty provides reliable coverage for daily use. Dimensions are 15.2" (L) x 9.8" (W) x 12" (H), offering a stable and compact countertop footprint.
