PRODUCT OVERVIEW

The ChefPro Series 3-Tier Shelving Unit is a steel shelving unit designed for storage use by chefs and staff in commercial kitchens, retail areas, stock rooms, garages, front-of-house spaces, and warehouse environments. It is constructed from steel material, supporting structured storage in dry environments as specified.

The silver color with chrome finish provides a neutral appearance suitable for visible and back-of-house commercial settings. This shelving unit is part of the Chefpro Series, identifying it within a coordinated storage equipment range. It includes 3 shelves, defining the stated tier configuration for organized storage.

Each shelf supports up to 800 lbs per shelf, indicating the specified load rating for stored items. The shelves feature a flat wire design with welded surface ribs, reflecting the construction details provided. Shelf height adjusts at 1" increments, allowing configuration based on storage requirements listed in the specifications.

The unit includes 4 posts with levelers, supporting stable placement on commercial floors. It also includes plastic snap sleeves, as specified for shelf positioning. It is NSF listed, indicating certification for use in foodservice-related environments. Overall dimensions measure 24" (W) x 18" (D) x 34" (H), supporting placement in compact commercial storage areas.
