SPECIAL FEATURES

- Multi-Function Operation**
 The cabinet supports food warming, dough proofing, dehydrating, and gentle thawing within a single countertop unit.
- Adjustable Temperature**
 The smart thermostat provides temperature adjustment from 86°F to 185°F for foodservice holding applications.
- Flexible Pan Storage**
 The cabinet accommodates 1/1, 1/2, and 1/3 hotel pans and supports 13-inch pizza storage.
- Organized Interior**
 Five trays, five adjustable mesh shelves, and five tiers provide structured food organization in commercial kitchens.
- Safety Protection**
 Auto shut-off, overheat protection, and anti short circuit design support safe operation during food holding.
- Certified Equipment**
 The unit is UL Certified and TUV Certified and includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Countertop Heated Holding Cabinet is designed for restaurants, catering services, buffets, food trucks, and school cafeterias requiring temperature-controlled food holding. Constructed from 304 blued stainless steel with a tempered glass door, this countertop unit offers a 133 qt capacity. It measures 24.2" (W) x 16.3" (L) x 28.74" (H) and features a single left-hinged door for food access.

This electric heated holding cabinet operates on 120 V power with a 900 W heating system. The adjustable smart thermostat supports temperatures from 86°F to 185°F for food warming, dough proofing, dehydrating, and gentle thawing applications. A 360° hot air circulation system distributes heat throughout the cabinet for commercial food holding operations.

The cabinet includes five trays, five adjustable mesh rack shelves, and five storage tiers for organized food placement. It accommodates 1/1, 1/2, and 1/3 hotel pans and supports 13-inch pizza storage. The tempered glass door features 5 mm glass thickness, providing visibility of stored food items during service.

This unit incorporates vacuum insulation and a fast-heating, energy-saving design for commercial kitchen applications. Safety features include auto shut-off, overheat protection, and anti short circuit design. The cabinet is UL Certified and TUV Certified and includes a 1-year warranty by the manufacturer.
