WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **Maximum Accessibility**
The cabinet supports 36 full-size sheet pans with lip load slides, providing organized storage for sheet pans used during restaurant food preparation and holding.
- ✓ **Glass Door Visibility**
The clear glass door design allows staff in a commercial kitchen to visually check food trays without opening the cabinet door.
- ✓ **NSF Certified Equipment**
The cabinet is NSF certified, meeting sanitation standards used for food handling equipment in restaurants and commercial kitchens, and it includes a 1-year warranty by the manufacturer.
- ✓ **Lip Load Support**
Each slide offers 100 lb lip load capacity, allowing chefs and kitchen staff to place multiple trays or heavier food items inside the holding cabinet.
- ✓ **Analog Temperature Control**
The analog control system provides manual temperature adjustment for food holding applications up to 185°F.

PRODUCT OVERVIEW

The ChefPro Series Holding Cabinet is a reach-in holding cabinet designed for chefs and foodservice staff working in a commercial kitchen, restaurant, or catering operation that requires organized food holding and sheet pan storage. This holding cabinet features a durable aluminum construction, with both the exterior and interior made of aluminum, providing a lightweight structure suitable for frequent kitchen use and food holding applications.

The silver finish presents a clean, professional appearance commonly used in commercial kitchen environments. It includes one clear glass door, allowing kitchen staff to view stored food items without opening the cabinet. The single right-hinged door opens from the right side, providing access to the interior while maintaining visibility through the glass panel.

It includes one clear glass door, allowing kitchen staff to view stored food items without opening the cabinet. The single right-hinged door opens from the right side, providing access to the interior while maintaining visibility through the glass panel. The cabinet supports 36 full-size sheet pans and includes lip load slides designed to hold trays in place during storage.

Each slide features a 100 lb lip load capacity, which accommodates multiple trays or heavier food items during food holding operations. The exterior dimensions measure 22.68" (W) x 33.25" (D) x 67.5" (H), offering a reach-in cabinet design suitable for kitchen prep areas and holding stations. This unit is NSF certified, meeting sanitation standards commonly required for food handling equipment in restaurants and commercial kitchens.
