1 Year Warranty

SPECIAL FEATURES

- Capacity**
 The 7.5 cubic foot interior provides ample space for beverages and perishables across four adjustable shelves in a back bar setting.
- Electronic Temperature Control**
 The electronic control system maintains a precise temperature range of 36°F to 50°F, supporting consistent cold storage across a full service shift.
- Secure Locking System**
 Locks and keys are included with the unit, allowing operators to restrict access to stored contents when the bar or kitchen is unattended.
- Adjustable Shelving**
 Four epoxy-coated, adjustable shelves allow kitchen and bar staff to reconfigure interior storage to fit bottles, cans, or food containers of different heights.
- LED Interior Lighting**
 Built-in LED lighting illuminates the cabinet interior, making it straightforward for staff to locate items quickly without opening multiple compartments.
- Standard Plug Compatibility**
 The NEMA 5-15P plug and 115V/60Hz single-phase electrical connection allow the unit to be installed using a standard commercial kitchen outlet without additional wiring.

PRODUCT OVERVIEW

The Frigomax Series Back Bar Cooler is ideal for restaurants, cafés, bars, hotels, and other commercial kitchen beverage service areas. It features a 7.5 Cu.ft capacity, providing space for chilled beverage storage and display in food service operations.

The exterior is made of coated steel with a black finish, offering a durable surface for commercial kitchen environments. It includes two glass swing doors, allowing visibility of stored beverages while supporting organized access during food handling and service.

The unit features four adjustable shelves with an epoxy-coated finish, allowing shelf positioning based on different beverage sizes. The LED lighting provides interior illumination for product visibility.
