WARRANTY

10-Year Panel, 1-Year Door Parts, 2-Year Compressor & Parts, 1-Year Labor on Refrigeration Unit

SPECIAL FEATURES

- ✓ **Dual Temperature Zones**
Includes a 10 ft cooler section and 5 ft freezer section with medium and low temperature configuration for commercial kitchen storage.
- ✓ **Insulation Performance**
4" polyurethane insulation with R-28 cooler and R-33 freezer ratings supports temperature separation.
- ✓ **Remote Refrigeration**
Air-cooled system with Copeland scroll compressor, outdoor condensing unit, and included evaporator supports operation.
- ✓ **Panel Construction**
24-gauge white galvanized steel panels with modular cam-lock and tongue-and-groove design support structural assembly.
- ✓ **Door System**
Two solid swing doors with keyed locks and self-closing, flush-mounted design support controlled access in food handling.
- ✓ **Warranty Coverage**
Includes 10-year panel, 1-year door parts, 2-year compressor and parts, and 1-year labor on refrigeration unit by the manufacturer.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Cooler & Freezer Combo is an 8' x 15' unit designed for commercial kitchen operations handling cold and frozen storage. It features white galvanized steel construction with 24-gauge panels and a galvanized steel floor. The unit measures 177" (L) x 98" (W) x 91" (H), supporting indoor and outdoor installation.

This walk-in combination includes a 10 ft cooler section and a 5 ft freezer section, configured as one medium temperature and one low temperature compartment. It features two solid swing doors with a height of 77", keyed locks, and self-closing, flush-mounted design. The modular cam-lock and tongue-and-groove construction supports panel assembly and structure.

The unit uses polyurethane insulation with 4" thickness and thermal resistance rated at R-28 for the cooler and R-33 for the freezer. It includes heating wire and a pressure relief vent for the freezer section. The floor is constructed of standard galvanized steel, supporting storage load in food handling environments.

This unit operates on 208/230 V, 1 phase, 60 Hz and uses remote refrigeration with an outdoor condensing unit and included evaporator. It uses refrigerants R404A, R407C, and R448A/R449A with an air-cooled system and Copeland scroll compressor. It is hardwired for installation. It includes a 10-year panel warranty, 1-year door parts warranty, 2-year compressor and parts warranty, and 1-year labor on the refrigeration unit by the manufacturer.

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
Phase	1 Phase	Door Type	Solid
Number of Doors	2 Doors	Insulation Material	Polyurethane
Door Lock	Keyed Lock	Floor	With Floor
Material	White Galvanized Steel	Plug Type	Hardwired
Refrigerant Type	R-448A	Type	Walk-In Combination Freezer / Cooler
Usage	Indoor/Outdoor	Nominal Width	8 foot
Nominal Height	7 foot	Nominal Length	15 foot
Hertz	60 hertz	Voltage	208/230 volt
Door Style	Swing	Insulation Thickness	4 inch
Hinge Type	Modular Cam-Lock, Tongue & Groove Design	Floor Material	Standard Galvanized Steel Floor

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
Refrigeration Type	Remote Refrigeration	Country of Origin	Proudly Made in America
Selling Unit	1/Each	Product Width	98 inch
Product Depth	177 inch	Product Height	91 inch
Cooler Section Length	10 foot	Freezer Section Length	5 foot
Gauge	24 Gauge	Thermal Resistance	R-28 Cooler / R-33 Freezer
Material Type	CFC & HFC Free	Features	Self-Closing, Flush-Mounted Door, Heating Wire and Pressure Relief Vent for freezers Only
Included	Condensing Unit and Evaporator	Door Height	77 inch
Series	PolarBox Series	Cooling Type	Air-Cooled
Configuration	1 Medium Temp + 1 Low Temp	Compressor Type	Copeland Scroll Compressor
Condensing Unit	Outdoor	Nominal Depth	15 ft
