SPECIAL FEATURES

- ✓ **Large Capacity**
The 10.5 qt capacity supports holding soups and liquids in restaurant and food service operations.
- ✓ **Countertop Setup**
The countertop installation type fits service counters and prep areas in restaurant environments.
- ✓ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer, aligning with standard commercial kitchen equipment requirements.
- ✓ **Rotator Control**
The rotator temperature control provides adjustable heat levels for consistent food holding in a commercial kitchen.
- ✓ **Durable Build**
Anti-fall and wear-resistance features relate to repeated use in food handling and kitchen workflows.

PRODUCT OVERVIEW

The ChefPro Black Soup Warmer is a countertop unit suitable for commercial kitchen operations such as restaurants, catering setups, and food service counters. It features a 10.5 qt capacity, providing space for holding soups, sauces, or similar food items during service. The unit includes a rotator temperature control, offering adjustable heat settings for consistent food holding conditions in a busy kitchen environment.

The construction includes a black exterior finish, contributing to a uniform appearance across countertop equipment in food handling areas. A fitted lid is included, supporting covered storage during service. The design incorporates anti-fall and wear-resistance features, which relate to durability in frequent-use commercial settings.

With a product width of 12.5 inches and a height of 13.9 inches, the unit is structured for countertop placement without occupying excessive space. The installation type is specified as countertop, making it suitable for placement in serving lines or prep stations. It includes a 1-year warranty by the manufacturer, providing standard coverage for commercial equipment.
